

First Announcement

The 4th International Symposium on Conservation and Management of Tropical Lakes

Featuring Environmental Health and Lake Basin Management

Phnom Penh, Cambodia

September 16th – 18th, 2019

ORGANIZED BY:

- Institute of Technology of Cambodia (ITC, Cambodia)
- Institute for Global Environmental Strategies (IGES, Japan)
- Tonle Sap Authority
- Ministry of Education, Youth and Sport
- Ministry of Water Resources and Meteorology (MOWRAM)
- Ministry of Environment
- Tokyo Institute of Technology (TIT, Japan)
- Yamagata University

INVITATION

We are very pleased to announce that the 4th International Symposium on Conservation and Management of Tropical Lakes will be held in Phnom Penh, Cambodia, from September 16th – 18th, 2019. This Symposium is jointly organized by Tokyo Institute of Technology (TIT, Japan), Institute of Technology of Cambodia (ITC, Cambodia), Institute for Global Environmental Strategies (IGES, Japan), Yamagata University (Japan), Tonle Sap Authority (TSA, Cambodia), and the Ministry of Environment (MOE, Cambodia)

Followed the growing success of the 1st, 2nd and 3rd Symposiums initiated by Tonle Sap Water Environmental Platform (TSWEP) based in Phnom Penh, Cambodia, which were successfully organized in 2016, 2017 and 2018 this year's Symposium will continue to provide a unique forum for various researchers, scientists, policy makers, NGOs and students to share their latest research findings, ideas, development and applications in a common effort to promote environmental conservation and appropriate management of lakes around the world.

Lakes are not only a source of water, landscapes and livelihood for many people, but also contribute a large proportion of our biodiversity. Therefore, understanding of the lake environment, and properly integrated planning of lake basins are substantial for a better management in respect to conserving this common for the future generation. While anthropogenic pressures and the impacts of climate change should also be accounted.

The Symposium will bring an excellent chance for participants interact and exchange ideas on how we could better protect and conserve our precious world's lakes environment through attractive oral and poster presentations, and discussion. Additionally, participants will have an opportunity to join an interesting excursion on the 3rd day. We also hope that many strong networks and partnerships will be established through the Symposium.

On behalf of the Organizing Committee,
Dr. Hul Seingheng
Institute of Technology of Cambodia

CALL FOR PAPER

The scope of the Symposium covers a wide range of issues related to environmental conservation and management of lakes around the world, especially focusing on, but not limited to, the following aspects:

- | | |
|---|--|
| - Hydrology and water resources | - Water quality and its control |
| - Sediment dynamics | - Microbial and chemical contamination |
| - Health risks and its management | - Ecosystems and fisheries |
| - Sustainable resources management | - Integrated river and lake basin governance |
| - Wetland restoration | - Disaster management and climate change |
| - Green technologies for lakes management | |
| - Agricultural waste/wastewater management and good practices | |

Templates for full papers, which are required for Oral Presentation will be available at the Symposium's website:

<http://www.itc.edu.kh/en/index...>

Important deadlines:

- Abstract submission for Oral Presentation: 15th June 2019
- Abstract submission for Poster Presentation: 15th July 2019
- Notification of acceptance for Oral Presentation: 1st July 2019
- Notification of acceptance for Poster presentation: 15th August 2019
- Deadline for submission of Full Paper (required for Oral presentation): 31th July 2019

Online Registration will be available from: 25th August 2019

Venue for organizing the Symposium will be announced to the participants later. For further **inquiries and submission** process:

Please submit to the following email: RIC_ITC@itc.edu.kh
